## DETAILED ACTION

### *Allowable Subject Matter*

Claims 5-8 and 42-46 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose incrementing a counter value in response to an audio status signal indicating that audio program content is imminent in an audio signal from an audio device. The closest prior art reference Gullick discloses a speaker control unit 208, bus monitor 2000, and counter 2004 for generating an audio status signal and control signal. However, Gullick increments the counter when audio program content is *absent* from the bus, the opposite of which is claimed in independent claim 5. As a result, claims 5-8 are allowed. Although independent claim 42 is similar, it is allowed because a counter is incremented in response to a operating system command, which is not taught nor suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
